Union Warehouse In Rosebud
And 1200 Bales Cotton Burned

News was received in Cameron this morning of the destruction by fire of the Farmers Union Warehouse in Rosebud early Thursday morning with 1200 bales of cotton in storage. The origin of the fire is unknown.

It is estimated that the loss will approximate some \$10,000 or \$15,000. No details concerning the fire could be obtained up to the hour of going to press.

SUBSCRIBER 40
YEARS TO HERALD
SENDS RENEWAL

R. F. Pool, Sherman business man and former resident of Cameron, has been a reader of The Herald for 40 years. In a letter enclosing his renewal subscription for another year Mr. Pool has the following to say:

"I am herewith enclosing you my check for renewal of my subscription for another year. I have been a continual subscriber for your paper for forty years.

On Aug. 22, 1881, I left the farm and commenced business in a little box house 19x12 on the west side of the square, on the lot now adjoining Mr. Dobbins' store. At that time there was one brick building in Cameron owned by Wiley & Porter, now occupied by Cheeves Bros.

As I recall now, I can remember but three men now living besides myself who was in business in Cameron at that time, Mrs. D. Kemp, M. M. Kemp and G. S. Mangum and R. S. Porter.

My first subscription was with the Cameron Sentinel, edited by Mr. Cameron. I am very proud of my Cameron and Milam county friends, as they are the friends of my boyhood days and Cameron is one of the dearest places on earth to me.

I have noticed great improvements in the Herald in the last few years and I look forward to its coming every week with a great deal of pleasure, as it is like getting a letter from home.

Wishing the Herald much success, I am,
Yours very truly,
R. F. POOL.

TWO CAMERON MEN
INJURED IN WRECK

GILES L. AVRIETT AND JOHN BROCK HURT WHEN CAR PLUNGES OFF BRIDGE.

Giles L. Avriett and John Brock were severely injured Tuesday night when the car in which they were riding plunged off a bridge near Thrall while they were returning from Taylor.

Mr. Avriett was confined to his home Wednesday but Mr. Brock was able to be up and about his business. Mr. Avriett was pinned beneath the car and both men were severely bruised and scratched.

The automobile belonging to Mr. Brock was badly damaged. Earlier in the evening a collision with another car put the lights on the Brock car out of operation and because of this it was difficult to cross the bridge with the result that the car plunged over.

VETERINARIAN LOCATES
FOR PRACTICE HERE

Dr. Verne A. Scott, veterinarian of Bryan, who for the past several years has been with the A. & M. college, has moved to Cameron and has offices in the building occupied by the Cameron Water, Power & Light company.

Dr. Scott formerly practiced in Houston. He is a licensed veterinarian and well equipped for his practice here.

J. R. May of Burkburnett and Ranger, oil operator who has been interested in the Cameron oil fields for several months has returned to Cameron to look out after his interests. He is accompanied by E. R. Crawford. Mr. May spent several months in Cameron in 1920 and will be remembered and welcomed back by his friends.

BAKER SEEKING TO
AID COUNTY; WANTS
NEW ALIGNMENT

WOULD CUT FROM McLENNAN IN SENATORIAL REDISTRICTING NOW PENDING.

Separation of Milam county from McLennan county in the redistricting legislation now pending in the legislature so as to give Milam county a greater political independence and to answer the demand for equal opportunity for the sons of Milam who may have political aspirations, is being sought by Representative O. B. Baker.

Representative Baker has consistently sought this separation in the redistricting bills and declares that Senator Witt is willing for Milam county to get her "political freedom." Mr. Baker opposed the senate bill in the first conference held on the redistricting legislation, conducting a vigorous fight. The house bill Mr. Baker will support gives the following senatorial district: Milam, Robertson, Burleson, Lee and maybe Brazos county. The senate bill proposes a district to be composed of Milam, Williamson, Burnett, Lampasas, Llano and San Saba.

Following the first conference after Mr. Baker had led the fight on the senate bill as unsatisfactory, Representative Hill and Senator Bledsoe submitted the following district to Mr. Baker which was satisfactory: Milam, Robertson, Brazos, Burleson, Lee, Bastrop, Washington. Mr. Baker claims that the Senate afterwards receded from this district and he charges broken faith.

Mr. Baker believes that a separation from McLennan will be brought about without difficulty when the bill is passed.

RETURNS FROM ALABAMA.

Mr. and Mrs. W. J. Walker and daughter, Mary Sue, and son, Walter, former residents of Cameron, but for the past year residing in the state of Alabama, have returned to Cameron and to Texas to make their future home.

Mr. Walker for twelve years was principal of the Cameron public schools. He is now in the employ of the federal government and expects to locate in Cameron permanently. He has many friends here who welcome his return. Mr. and Mrs. Walker are guests in the home of Mrs. Walker's sister Mrs. M. G. Cox. Mr. Walker will be remembered as prominently identified with the Baptist Sunday school having taught the men's Bible class for a number of years.

METHODIST CHURCH.

The pastor will preach at both services in the Methodist church Sunday. Morning, the subject will be: "The Divinity of Jesus Christ and its Meaning" and "Peter's Blundering Sword." Miss Dorothy Shriner of Houston, Texas will sing at the 11 o'clock service. F. Flaxington Harker's "How Beautiful Upon the Mountains." There will be special music at the evening hour besides that regularly furnished by a splendid orchestra and choir.

PRESBYTERIAN CHURCH.

The services next Sunday will be of special interest to the young people of the city and we are giving them an invitation to worship with us. Preaching by the pastor morning and evening.

The pastor was absent from the city Wednesday evening holding a union service in the Presbyterian church at McGregor. Attend church somewhere Sunday.

H. R. McFADYEN, Pastor.

J. O. Roark of Thorndale was in Cameron this week.

AUDITORIUM HOTEL
PURCHASED BY S. A.
COTTLE THIS WEEK

POPULAR MANAGER OF HOTEL FOR PAST TWO YEARS BECOMES ITS OWNER.

The Auditorium Hotel in Cameron was sold this week to S. A. Cottle, who has been manager of the hotel for the past two years. The hotel was owned by Mrs. J. S. Doan of Bryan, widow of J. S. Doan, hotel operator who died several months ago.

The purchase in Cameron included the main hotel building and the property known as the Commercial Hotel.

Mr. Cottle is a young man with wide training in hotel management and has made a success of the hotel in Cameron. The hotel dining room will be closed several days this week in order to make improvements, including a concrete floor and other improvements.

Mr. Cottle has taken an active part in civic affairs being one of the organizers of the Commercial club, having served as its first secretary.

The Herald wishes Mr. Cottle continued success in the operation of The Auditorium.

TO REBUILD HOME
FOLLOWING FIRE

MRS. LOTTIE BIGBEE PLANS NEW MODERN HOME WHERE FLAMES CAUSE LOSS.

Mrs. Lottie Bigbee whose home was destroyed by fire Thursday, August 18, is planning to rebuild the home, placing on the site where the flames swept a more modern structure planned with the view of larger accommodations.

The loss is estimated to have been approximately \$10,000. The home was partially insured but the loss will be heavy.

The fire which destroyed the home was discovered a out noon Thursday but before assistance came the home was destroyed. Other dwellings adjoining were threatened and only heroic work of firemen and citizens averted further losses.

The building of the new home will not be undertaken until adjustments on insurance has been made and additional details of the plans have been decided upon.

\$30,000 WORTH OF
DIAMONDS STOLEN

STONES VALUED AT \$20,000 TURNED OVER TO SHERIFF IN DALLAS.

Diamonds valued at about \$30,000 belonging to Shuttles Bros. & Lewis, a Dallas firm, were taken from a drummer's trunk Monday night by burglars who broke into the railway depot at Royse City where the trunk was stored. About \$20,000 worth of diamonds were turned over to Sheriff Ran Harston yesterday afternoon by a railroad brakeman on a train from Royse City, who said he had found them in a car on the train. H. V. Baker, salesman for Shuttles Bros., had placed the trunk in the depot. Here were eighty-eight diamond rings in the handkerchief turned over to Sheriff Harston, according to R. H. Shuttles, president of the firm.

A 15-year old boy was arrested at Royse City early Tuesday by officers who found him sleeping in a church. He was released after he had been held about two hours.

A boy caught the freight train coming to Dallas about noon yesterday, according to the brakeman. He mentioned the robbery and offered the brakeman a ring which the brakeman said might have cost about \$1,500. When the brakeman refused the ring the boy threw it into the weeds along the right of way. As the train approached Rowlett the boy jumped from the train and ran. The brakeman searched the

L. D. BLACKWELL
PIONEER CITIZEN
DEAD IN CAMERON

CAME TO TEXAS FROM GEORGIA WHEN A YOUTH AND SETTLED IN MILAM CO.

L. D. Blackwell, aged 58 years, died at his home in Cameron Wednesday morning following an illness of about 10 days resulting from failing health over a period of several years.

Mr. Blackwell was a member with F. A. Marek in the Exchange Furniture Company in Cameron where for the past several years he has successfully engaged in business.

L. D. Blackwell was born October 4, 1863 in Georgia. He was left an orphan when at the age of eight months his father died, followed soon after by the death of his mother. From a child he grew to youth in his native state and at the age of sixteen years came to Texas and settled at Yarrelton in this county, where he engaged in farming. He later moved to Cameron and engaged in the dairy business, later entering the furniture business.

Mr. Blackwell was twice married, in 1886 to Miss Myra Kemk and to whom was born four children, three sons, Alvin, Willis and Henry, all of Houston, one daughter, Miss Annie Blackwell of Cameron. His second marriage was to Miss Lizzie West in September, 1889. To them was born two daughters, Mrs. Gertrude Hester and Miss Nora Blackwell of Cameron.

Mr. Blackwell was a beloved citizen and a Christian man, having been converted at the age of 20 years, joining the Baptist church.

Funeral services were held this afternoon in the residence in Cameron, conducted by Rev. C. L. Spradley with burial in Oak Hill cemetery.

The Herald extends its sympathy to the bereaved family.

Nueces County Cotton
Better Than Expected

Corpus Christi, Tex., Aug. 22.—The cotton crop in Nueces county not only is proving larger than had been anticipated, but taken altogether is holding up well in quality, buyers here say. One buyer said strict middling was the predominating grade and quoted a purchase he had made in which 15 bales were strict middling and one classed as middling.

Nueces county has gained approximately 30,000 bales of cotton up to date and the seasonal estimate of the 1921 crop now runs from 40,000 to 60,000 bales, if the entire crop is picked. The season is advanced to about one-half completion with isolated districts further advanced, according to reports from all parts of the county. Ginners predict from two to three weeks of day and night "rush" work followed by several weeks of active daylight operation before the end of the season has been reached.

Grade of cotton began to be affected this week by trash, due chiefly to drying of the leaf through action of leaf worm. Some bales graded as strict low, the first heard of this season when the average has been middling or better, were reported by ginners. Improved ginning processes a large part in this season's operations in improving the grade of cotton in Nueces county. The week just ending was the biggest of the season with the gins of the county.

An alarming phase of the situation, owing to lack of pickers in the Petronila vicinity and in the stretch of country between Robstown and Bishop was reported by arrivals today. Thousands of acres with cotton fully opened and requiring picking are to be seen, with not a picker at work. The smaller farmers are in good shape, most of the cotton thus affected belonging to men having 100 acres or more in cotton. Should the weather hold continuously fair for a few weeks more and there be no high wind, even this crop may be saved, but a heavy rain accompanied by wind would be disastrous.

car in which the boy had been riding and found a dirty blue handkerchief which inclosed the diamonds turned over to Sheriff Harston.

Pipe Line Proposed Quickens
Interest In Cameron Field

BY E. E. SULLIVAN.

The favorable reports for the building of a pipe line to the three producing wells in the Minerva field and the upward trend of the market for a better price for crude oil in the early fall as indicated by the advance in price of El Dorado, Arkansas crude oil from 30 to 40 cents per barrel, which price is sure to be met by the larger companies and the prospects of the operators in this field getting a fair premium for the oil produced will stimulate drilling which is needed to secure more production in order to interest capital for an outlet and a ready market for Minerva crude.

The Thrall Refinery Company of Thrall Texas, represented by Fritz Fochs of Thrall, Texas and Dr. H. C. Van Hacen and Charles A. Eartman of New York City, his associates, held a meeting at the Minerva Mercantile company store at Minerva on Friday, August 19th, for the purpose of contracting for the production present and future in the field, no tentative offer was accepted, the proposition as offered to the producers was for laying of a temporary line to the three producing wells from a loading rack at Minerva, with lateral lines to all new wells as fast as completed. With a daily production of 50 barrels now in the field supplemented by new production their being several wells on the sand, the possibilities for a line looms large and will probably be built at an early date. The meeting was well attended and shows the interest attached to the future of the Minerva field which is now destined to become the largest shallow field in the state if not in the country.

Developments in the drilling sector of the field were slow this week as many of the rigs were shut down for repairs and casing and there will probably not be any new producers brought in until the early part of the coming week. Several lease contracts were signed and a number of operators from the North Texas fields were here looking over the prospects of the field and all expressed themselves as being satisfied that a real shallow oil field was located here as seeing is believing as one man said.

No new locations were announced this week. One new well will probably be spudded in Saturday by Hess, Van Dorn and Ledwell on the north 100 acres out of the north half of the Robert Isaacs tract west of Minerva in the proven district of the new field. The drilling rig is moved on and the drillers are rigging up preparing to spud in. Moore C. Hess the senior member of this drilling combination of operators, together with his partner W. B. Ferguson is responsible for interesting J. A. Shunk of the Texas Plains Syndicate in the Neihous acreage, and the drilling of the well which

KU KLUX DONATE
\$100 WHEN HOME
BURNS IN CAMERON

A letter received through the mails on last Friday addressed to The Cameron Herald containing a sealed envelope with instructions that it be delivered to Mrs. Lottie Bigbee whose home was destroyed by fire Thursday was found to contain \$100 in currency.

In the sealed envelope was a letter addressed to Mrs. Bigbee and signed Knights of the Ku Klux Klan.

This is the first knowledge of the existence of an organization of the Ku Klux Klan in Cameron. The letter containing the sealed envelope was postmarked Cameron and the date was August 19.

Mrs. Bigbee said that she wished to thank those who presented the money and that if they would come forward and give their names she would invite them along with the fire boys to a banquet she is planning when her new home is completed.

Through the courtesy of Mrs. Bigbee the letter is published as follows:

Cameron, Texas, Aug. 18, 1921.
Mrs. Lottie Bigbee, Cameron, Tex.

Dear Madam: The Knights of the Ku Klux Klan enclose herewith a

S. P. Cross
Insurance, Farm Loans, Security Bonds. Over First National Bank, Cameron, Texas.

is a 15 barrel producer is the result of their efforts. Hess and Ferguson have spent several thousand dollars in the Milam county fields and together with Sam Hohenstein of the Oklahoma Bell Oil company who drilled in the discovery well in face of many serious mishaps and a large expenditure of money in the drilling of the Robert Isaacs No. one on the east side of Cat Tail creek. This well it is said cost the company several thousand dollars and about 10 months of real hard labor by Mr. Hohenstein and to these men is given the credit for the pioneering in the new field.

Fete Johnson and J. E. Rumberger number one Monley, have been shut down for the past few days waiting for a carload of casing which is supposed to be shipped in this week, the well is shut down at 656 feet, on top of the green sand.

J. Z. Hodge et al number one, Cooper, drilling at 150 feet in blue shale.

Number one Ed Doss, south of the Bauer well shut down after spudding in.

Kemp and Hefly number one Woody-Jacobs, shut down, waiting orders.

The San Gabriel Oil & Gas company under the management of Arthur Brown of Los Angeles, California, drilling on the A. C. Brown south of the Bauer well on the east bank of the San Gabriel river expect to complete their number one well which is drilling at 300 feet. All casing is on the round ready to be set when the pay sand is drilled into.

Oklahoma Bell Oil Company, number one Ben McClellan, Sam Hohenstein, manager, cleaning out preparing to run 2 inch tubing for the pump, estimated production 15 barrels.

Bell and Haines number one, R. L. Batte, two miles and one half south of Cameron, six and one fourth inch casing was run at 535 feet on account of cave in the shale. Drilling is being done with a standard bit and casing is following the bit to the pay sand, which is expected to be drilled in Thursday of this week. This well will extend the field 3 and one half miles to the north. The drilling is being done with a Sparta number 30 rig.

D. L. Baggett number one, Henry, have ordered a small rotary rig which will be shipped into the field to drill out the Henry lease, this lease is an offset to the Neihous tract and is located between the producers in the field.

It is predicted that at least 50 wells will be drilled to completion before the winterset in and California capital is being interested here as well as eastern money. There is as much activity in the field as elsewhere and there are wells coming in all over the state in spite of the reported curtailment of development.

token of good will which we hope you will accept with our very best wishes.

We feel a very keen sense of regret at your loss. We appreciate to the fullest extent your worthy efforts in our town in that you have provided a home for our young men in Cameron, which has been to them so much comfort and help.

We would like for you to know that the Ku Klux Klan stands for all that is upright and is ready at all times to safeguard the interests of our good women and to lend every encouragement to our upright men.

Should you see fit to rebuild on the ruins, as we hope you will, we shall watch with interest and lend you such assistance as we can. Assuring you that it will give us much pleasure to have you accept this in the spirit in which it is given.

Yours sincerely,

Yesterday, today and forever.

THE AMERICAN CREED.

I believe in the United States of America as a government of the people by the people for the people—whose just powers are derived from the consent of the governed—a democracy in a republic—a sovereign nation of many sovereign states—a perfect union one and inseparable—established upon principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes. I therefore believe it is my duty to my country to love it—to support its constitution—to obey its laws—to respect its flag—and to defend it against all enemies.

The Cameron Herald imparts some startling information in regard to the cotton receipts at Cameron. Under a double column headline in its issue of Aug. 4, and repeated in its issue of Aug. 11, the statement is boldly made that Cameron leads all towns in Texas in receipts of wagon cotton. That during the 1920 season Milam county produced 85,000 bales, of which 80,000 were marketed in Cameron. The Herald neglects to inform an anxiously-waiting public where the other 5000 bales went, but possibly if Editor White would investigate closely he would find that this small surplus was divided between Thorndale, Buckholts, Burlington, Milano, Ben Arnold, Minerva and Gause, Rockdale, of course, did not get any cotton last year. "The FACT that Cameron led ALL (note the all) cotton points (in the world) in the number of bales received by wagon speaks VOLUMES for this center," etc., etc., says The Herald. "Volumes" is good. And Cameron being the magnet by which 80,000 out of a total production of 85,000 bales of cotton was marketed, Editor White ought not to have any trouble in writing volumes for publication concerning the startling "fact."—Rockdale Reporter.

Here is the story printed in The Cameron Herald, reproduced for the benefit of that "anxiously waiting public" before whom Editor Cooke drags this blushing scribe with cruel cunning and sinister grin:

Cameron, according to the report of the local federal cotton classifier, leads all towns in Texas in the receipts of wagon cotton. During 1920 Milam county produced approximately 85,000 bales of cotton. About 80,000 bales have been ginned and reported to the federal census bureau.

The territory adjacent to Cameron includes some of the most productive farm lands in Texas and this is given largely to the production of cotton, the principal crop of the county.

Good roads have made it easy for farmers to market their cotton in Cameron and in addition to this have the advantage of this point as the best trading center in Milam county.

The fact that Cameron led all cotton points in the number of bales received by wagon speaks volumes for this center as a place for better market facilities as well as the territory from which Cameron draws trade. Roads leading into all the productive areas of the county have been constructed and Cameron receives cotton from all sections of the county.

Now that we have survived the first thrust and while the "anxiously waiting public" pauses with undecided thumbs fearful lest it banish in a moment of untoward orgy an humble proletarian of the quill who essayed a good thing in the name of his town, it were well to read between the lines in what the Reporter has to say for the ear marks of a well founded lamentation over the commercial supremacy of a rival city.

Misses Emma and Beth Pool and Mr. Truet Pool returned to their home in Plainview after a visit in the home of Mr. and Mrs. E. A. Flynn.

Mrs. E. N. Fountain of Temple is a guest of Mrs. E. A. Flynn.

Mr. and Mrs. J. E. Mullinax and son, Jewel motored to San Antonio Friday, returning Sunday. They were accompanied by Mrs. L. Reeder and children who have been visiting in Austin, Granger, Cameron and other points. One entire day was spent in seeing the missions and other points of interest in and around the Alamo city. One of the pleasures of the day was the delightful lunch spread in beautiful Breckenridge park, and later a visit to the swimming pool was very much enjoyed by the younger members of the party.

NOTICE OF APPLICATION FOR ORDER OF SALE.

THE STATE OF TEXAS

To the Sheriff or any Constable of Milam county, Greeting:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the county of Milam, State of Texas, and you shall cause said notice to be printed at least one week exclusive of the first day of publication before the return day hereof:

Notice of Application for Order of Sale—Estates.

The State of Texas,
To all persons interested in the estate of Dora White, Alfred White, and Floydine White, minors. Alma White, guardian of the persons and estates of said minors has filed in the county court of Milam county, an application for authority to make an oil and gas lease on land belonging to the estate of said minors, to-wit: Two hundred acres of land in the Byrum Wickson survey in Milam county, Texas, situated in the northern portion of said county, which application will be heard on Friday, September 2nd, 1921 in Cameron, Milam county, at the court house thereof, at which time all persons interested in said estate are required to appear and show cause why such authority should not be given, should they choose to do so.

Herein fail not, but have you then and there before said court this writ, with your return thereon endorsed, showing how you have executed the same.

Given under my hand and the seal of said court, this 25th day of August, A. D. 1921.

(Seal) WIL T. YATES,
Clerk County Court, Milam
Texas.

By MRS. K. K. ROBBINS, Deputy.

CLOSES MEETING.

Rev. Ira F. Key, pastor of the Cameron Methodist church, has just closed a meeting at Cedar Springs in Falls county. He will preach at both the morning and evening hours at his church Sunday.

CARD OF THANKS.

This is to extend our appreciation and sincere thanks to the firemen and citizens for their faithful and efficient work in saving our home during the fire on Thursday, August 18, 1921. MR. AND MRS. GEO. S. MANGUM.

Dr. F. R. Dunn, optometrist of Cameron, was in Hearne and Franklin several days this week where he formerly lived and had a large practice. He is now located in Cameron.

O. D. Baker of Gause, florial representative from Milam and Bell counties, was in Cameron Monday talking with friends. He left for Austin to be in the second called session of the legislature.

Col. Ike Looney, representative from Milam county to the 27th legislature was in Cameron late last week talking with and visiting with friends and supporters. He left early this week for Austin to represent the district in the second called session.

Mr. Arthur Adams is visiting the Tabor family in Austin.

THORNDALE NEWS

BY FRED M. HERNDON

Thorndale's third monthly Trades day held here Monday was an unequalled success viewed from any angle. More than 4,000 persons were estimated to have been in attendance during the day, and without exception each one present felt this was the very best of the days so far held along this line. The crowds began arriving early and before 9 o'clock, the time for the start of the baby parade both sides of the main street were lined with interested spectators.

The parade of the babies in decorated automobiles was a very pretty sight and was accorded an enthusiastic reception all along the line of the parade. The parade was formed in front of the Smith-Bunting building and proceeded out Main street to the Baptist church and return to the building where the judging of the babies was held. Miss Stella Carter, county health nurse, assisted by Miss Ella Yeager and Dr. Crockett weighed and measured the babies entered. Mrs. W. Wilson was in charge of this and the work was handled in a very satisfactory and expeditious manner. Assisting Mrs. Wilson were Mesdames Sanford Gore, Jones Cleurent and Geo. Peebles and Miss Emma Saller.

A. Y. Norman, Jr., San Gabriel was adjudged the most perfect baby in the junior class, up to 2 years of age. James Campbell, son of Mr. and Mrs. Wm. Campbell was awarded second.

In the 2 to 4 year class Margaret Locklin, daughter of Mr. and Mrs. Bill Locklin of San Gabriel was awarded first and A. J. Lehman, Jr., of Thorndale was second. Margaret Locklin was the most nearly perfect of the entries. Prizes in the two classes carried \$3 for first and \$2 for second awards and the awards were made in cash.

There were 78 entries in the two classes showing a widespread interest in the parents of this section in the physical examination of the children entered. Miss Carter, county health nurse was very enthusiastic over the number of entrants and the interest shown by the mothers of this section and in a number of instances the hurried examination given the children revealed little defects in the general health that were brought to the attention of the parents and which can be easily remedied.

Miss Carter stated that the examinations had to be made very hurriedly on account of the number of entrants and only a superficial examination was possible, grading the babies as to height, weight and physical condition.

The better babies contest was an unqualified success and the hearty endorsement and praise of Miss Carter's work from the mothers attested the general interest in the better babies movement in this section.

The display of fancy work and art was of only second importance to the better babies show. Under the direction of Mrs. J. R. Pettit and Miss Jewel York this display was arranged very attractively. First prize in this exhibit was awarded to Mrs. O. F. Smith on a hand embroidered dresser scarf. Miss Lola Kirkman was awarded second prize on a hand embroidered dresser scarf. Honorable mention should be made of the displays of hand embroidered lunch set by Miss Afer Elliott, dresser scarf

ricks and fancy and embroidered work of Miss Ruby Ellison.

Ten quilts were entered in the display for which there were no prizes available at this time as it was not known they would be entered. Among those displayed were quilts by Mesdames John Ponton, Carrie Smith and H. J. Richardson which showed careful attention to detail in intricate patterns that were lovely.

The display of home canned products under the direction of Mesdames L. I. Wilson and Ada Hennington was small although complete in the two exhibits shown. Mrs. J. T. Fulcher and Miss Emma Saller had very interesting exhibits showing home canned peaches, pears, jellies, and jams and a good display of vegetables.

While Mrs. J. R. Ellison had a display of corn on the cob in glass, along with tomatoes and blackberries that looked delicious. A display of fresh eggs preserved in water glass by Miss Saller attracted quite a bit of attention and a jar of brandied peaches shown by Mrs. Fulcher was the center of attraction for hungry eyes and watering mouths of some who have not forgotten.

An interesting display of three jars of honey by Jamie Clark showed three different grades of his famous sweets that are produced on the Gabriel and sold over a wide section of this part of the state.

Another interesting display was of apples, bananas, onions and lemons, all in one jar covered with pickling vinegar and displayed by In Rudi. The fruit was well preserved and looked fresh after being in this solution for some four months.

The broncho and steer riding and the goat roping drew a crowd to the new park estimated at from 2500 to 3000 people. Riders and ropers from Hearne, Georgetown, Taylor and Bertram besides a number of local men participated in the contests which were received with enthusiasm.

In the goat roping contest Rufus Graves won first prize of \$25. His time was 27 seconds. Stauffer of Thrall was second with 30 seconds and secured the prize of \$17.50. Bill Locklin was third with 32 seconds and was awarded third prize of \$10.

In the steer riding contest Vickers of Georgetown was first and captured the \$15 prize. R. M. McCarver of Hearne took second honors and \$10 in cash.

Harry Gamble of San Gabriel had the field bested in the broncho riding and won the \$10 with ease.

The day's festivities had rather a sad ending when the mighty Thorndale Champs went down to bitter defeat before the strong Elgin nine to a 10 to 4 count. Sad but true. The Champs were not up to their usual good form, which was coupled with loose plays at crucial moments costing the game.

Outside of the base ball game the day was very pleasantly spent, folks, so come back next Fourth Monday, September 26th and we'll leave off the ball game so there will be no regrets.

Sadness reigned throughout this section Monday when the word was sent forth that the spirit of Sarah Elizabeth Elliott, wife of J. C. Elliott had departed at 11:45 a. m. To know her was to love her and her friends in

this section were legion. Although 74 year old Mrs. Elliott had enjoyed good health until she was taken ill last Saturday. Her illness appeared only temporary and no uneasiness was felt over her condition until 10 o'clock Monday morning.

Sarah Elizabeth Elliott was the daughter of Mr. and Mrs. Tom Mills, who at one time lived in the Davilla community. Mrs. Mills, or as she was better known, Grandma Sally Mills made her home here for some time before her death, and will be remembered here.

On June 17, 1868 the marriage of J. C. Elliott and Sarah Elizabeth Mills was consummated at Holland, Texas, the young couple then moving to the Elliott farm six miles south of Thorndale where they made their home until 1889, moving to the family home here in the city. She was a member of the Methodist church from early womanhood and took an active interest in church affairs as long as possible.

Besides the husband, J. C. Elliott, four children survive: They are Hon. J. J. Elliott and W. B. Elliott among Thorndale's most prominent business men, Mrs. Fred Frenzel and Miss Jennie Elliott, all of this city. One brother, Sam Mills of Killeen, Texas, also survives her.

Funeral services were held at the late residence Tuesday morning at 10 o'clock with interment following in the city cemetery. The business houses of the city were closed from 10 o'clock until 1, honoring the memory of one of Thorndale's pioneer women, and one of its most lovable characters, a native Texan, having been born in Cherokee county, Dec. 15, 1847.

Honorary pallbearers were: T. M. Williams, Chas. A. Davis, H. H. Camp, Z. T. Gore, Sam Clement, Dr. L. L. Lee, J. T. Fulcher and August Moerbe.

Active pallbearers were: L. D. Barnes, J. R. Gresham, Chas. Saller, L. I. Wilson, J. S. Gore and M. E. Fisher.

The entire community are joined in sorrow with relatives over the loss of this great, good woman who strewed her earthly pathway with sunshine and flowers to those with whom she came in contact.

Gatesville took the first of the three game series against the Champs played at Gatesville last Thursday 3 to 2

MAKE YOUR OWN SUCCESS

Let your own ability carry you to the top. But let us coach you in the preparation, for we know how. Don't start the climb without a thorough training in modern business methods. It will save you untold time and money. Our courses are the most thorough, complete and practical to be found, and are given in the shortest time. The training is worth months of effort—but why spend months in another school when you can get it in weeks here. With the best and most modern systems of business training known, their merit proven by the wonderful growth of our institution, with the most capable teachers that can be had, and complete, up-to-date equipment in all departments, we will prepare you in a short time and at a

Gillette pitched a great game and should have won as he allowed only six scattered hits. From reports of players and spectators the Champs went against a ten man team in this game, and as always the umpire is the deciding factor, and can throw the game either way if he is so minded, and from these reports the umps was apparently strong for his home team. This is the first game Bus has lost for the Champs this season.

With a new face in the umpire's box in the second game the Champs were accorded an even break and Meeks allowed only three hits for a 1 to 0 score. Joey Ellis scored the lone tally by his fast base running. This was said to be the best game played in Central Texas during the present season and Meeks was accorded a tight support while he pitched this shut-out against the Gatesville squad.

In the third and last game of the series McMellan allowed only three hits while Bagby, a former Sharp hurler allowed the Champs eight, but ragged support behind McMellan allowed this game to go to Gatesville on a 1 to 0 count. The Champs had chance after chance to score in this game but failed through listlessness.

Thorndale defeated the rejuvenated Taylor aggregation by a one-sided score of 8 to 1 in the Sunday game at Taylor. Taylor, relying on Cagle and Bobo felt the game was safely tucked away in the first frame and by the time they awoke the score was beyond their recovery.

success if you make the most of it.

We offer you the opportunity. Will you take advantage of it? Your time and money spent in securing the business education we will give you will be the best investment you can ever make. Think! Act! You'll never get ahead by following the crowd that hesitates. The old adage that "Success comes to those who wait" is not true in these days. Success never comes,—it is always going. It is up to you to catch it, and to do so you must prepare yourself. There are always plenty of positions for competent people.

Fill in and mail the coupon for large free catalogue and full information about our courses and what we can do for you.

Why Not Enjoy a Vacation Right Here at Home?

A vacation from the family wash-tub—from Blue Monday and all its cares.

Just resolve, right now, this week, to bundle up the family wash and send it to us.

We'll wash everything sweet and clean for you, in oceans of pure, rainsoft water, and suds of mild, white soap, and iron all the larger flat pieces.

Then we'll return your bundle, all complete except for a few things you can iron at your leisure.

Think of all the time and toil this plan will save you—yet it costs so very little!

Gather up everything that needs washing, phone for our driver, and he'll call promptly.

R. E. SHARPE, Prop.

Neff Resubmits Entire List Appropriation Measures

Governor Neff in his message to a second called session of the 37th legislature resubmits the entire list of appropriation bills as well as returning to the legislature the redistricting bill passed at the first called session. The governor advises the legislature to keep within the revenue of the state in making appropriations for the next two years.

The full text of the message from the Governor follows:

"Your inability to pass the general appropriation bill during either the regular or first called session, as you were each time urged to do, made it necessary for me to reconvene you in this second special session. It was with reluctance that you were re-assembled. I had no alternative. Our institutions of learning could not, in justice to the people, be, for the coming year, closed. Your honorable body alone has the power to make these appropriations for their maintenance. The Constitution makes it my duty to recommend, but I have no authority to enact laws. Therefore, when on Tuesday night you adjourned with the doors of every institution of advanced learning in Texas closed for the coming school year, there was

nothing left for me to do except re-assemble you, and for the third time kindly ask that these imperatively demanding appropriations be made.

"While I do not consider it within the scope of my proper province to take either side of the bitterly contested differences between the Senate and House which made it impossible to agree on the educational bills, still I do not deem it out of place for me, in the interest of the great State of Texas, whose servants we are, to express the earnest hope that you will speedily reconcile and compromise your differences and make necessary appropriations for the support of all our institutions. Appropriations, of course, should be kept within the available revenue. In this connection, I desire to remind you that our present tax rate is 22 cents on the \$100. The tax rate, together with taxes from other sources, according to the highest estimate made by any State official connected with the handling of the State's funds, will make available for you to appropriate for the coming financial year, in round numbers, the sum of \$19,000,000. If your appropriations exceed this amount you force a raise of the present tax rate. Estimating the educational bills, not yet passed,

at \$5,000,000, the present legislature has appropriated to be paid out of this \$19,000,000 the sum of \$22,000,000. It is impossible to pay a \$22,000,000 debt with \$19,000,000. Under present financial conditions the present tax burdens should not be increased. Therefore, in order that you may re-adjust your appropriations and cut the garments to fit the cloth, provided you do not desire to increase the tax burdens, you are privileged to consider the wisdom of cutting down any appropriations made for any purpose in any bill passed by the 37th legislature.

Redistricting Stressed.

"As far as I know, this will be my only message to this special session, and for that reason I feel it my duty to again call your attention to the fact that Texas has not been redistricted into senatorial districts for 20 years. The Constitution demands that the state be redistricted into representative and senatorial districts every ten years. The democratic platform on which you ran for office demands that this legislature redistrict the state.

The bill passed by the first called session a few days ago does not fulfill either the letter or the spirit of the Constitution or the party platform. Therefore, the matter of redistricting the state into senatorial and representative districts is cordially submitted to you for the third time, in order that this work, committed to your hands by the people of Texas, may be done so that said acts will go into effect now and not in 1924, as heretofore enacted by you.

"I pledge you my active help and earnest co-operation to the end that we may have a government amply provided for and economically administered. If I can be of service to you in your deliberations, I am yours to command."

Hot Water Each Morning Puts Roses in Your Cheeks

● To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incandescent material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

● If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire

alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

Texas Representative Urges Tax Levy for Education

Editor of The Herald:

In view of the many heated discussions, counter-statements and misunderstandings during the recent special session of the Texas Legislature, the State of Texas is brought face to face with the undisputed fact that our present educational system governing the management, support and maintenance of our higher institutions of learning in this State is inadequate, inefficient and subject to ultimate breakdown.

Those interested in the perpetuity of our institutions might as well face the crisis now at hand.

The people of Texas must know that the education of the youth of the Commonwealth is not merely the question of the passing years—that it is not founded upon political passions of the hour or the year—but that it is the question of the ages.

When the older civilizations of Rome, Greece, Nineveh, Alexandria and Babylon forgot the great issue of universal and patriotic education, they all perished.

In ancient days, it was said that the laws of the Medes and the Persians were unchanged and unchangeable, and would live forever.

History repeats itself through all the ages and the record comes to the people of Texas as now and challenges the men and women of this state to forget any personal or political ambitions and unite for the future greatness and glory of a trained and educated citizenship.

If the University of Texas, the Agricultural and Mechanical College of Texas, the College of Industrial Arts, the State normals and other educational institutions of the State are to be of the first class, then a stable and orderly system must be evolved for their support and maintenance, not merely for the hour but for all future time.

The educational institutions can be saved from the maelstrom of political contest by the adoption of a constitutional amendment setting aside a mill tax, or the passage of a law placing the attendance in our University and colleges of the first class on a per capita basis, with a building program to meet the issues confronting a great

State and the onward march of civilization.

God never put a nobler earthly sentiment in the hearts of patriotic men and women than to look well to the education of the youth of the Commonwealth.

Will the men and the women of Texas, who believe in her institutions sit supinely down and witness another spectacle of seeing the very life of her schools and colleges in the balances?

They ought not to hesitate for a month or a day—not even one hour.

The forefathers came into the wilderness and organized a civilization here and placed in the constitution and the law provisions that the children should be educated, and now this generation must meet the issue or break faith with the heroic men and women who sleep beneath her sacred dust.

If institutions in Texas are to be of the first class so that the young manhood and womanhood of Texas can, after spending years in search of knowledge, face the world and its duties, knowing that they are armed with knowledge of the first class, then we will have succeeded in saving civilization.

Let the friends of the University of Texas, the A. and M. College, C. I. A., and all her great schools and colleges, awake.

The time has come when a system of permanency, a stable and enduring support, must be given to the men and women who are devoting their lives to the cause of education.

There must not be any vacillation or uncertain policy in the future.

There must be an adequate tax based upon a sane policy set aside for early established institutions to allow them to meet the issues confronting the people.

The young men and women of Texas must not be driven from Texas to seek the knowledge and culture that is the safety of society and the nation.

Hence a tax must be paid for the common school up to the highest capstone of the educational superstructure.

Today Texas is not fully meeting the issue.

There is chaos and doubt everywhere and it behooves every man and woman in Texas to take up the question and put it in the organic law of this State and declare a new principle that those things the forefathers gave their fortunes, lives and sacred honor for will be reserved.

There is but one thing to do now, and that is for those who believe in stable and efficient support of all our schools and colleges to assemble and promulgate a plan for the future that will save these things we have built and perpetuate the glory and advancement of Texas along the highest lines of civilization.

Texas should not hesitate or falter, but act and that without delay to evade the conflicts, doubts and disasters that have been a menace at Austin.

Our educational interests will finally meet disaster if they are subject to political revision and passion every two years.

In this crisis will we wait or shall we assemble and act for the good of

all Texas and the coming generations?

The time for definite, concrete and constructive action has come, and who will lead the way?

LEE J. ROUNTREE,
Representative, 22nd District.

For Torpid Liver

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. White-side, of Keota, Okla. She continues: "I had a pain in my chest after eating—tight, uncomfortable feeling—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief."

**Thedford's
BLACK-
DRAUGHT**

For over seventy years this purely vegetable preparation has been found beneficial by thousands of persons suffering from effects of a torpid, or slow-acting liver. Indigestion, biliousness, colic, coated tongue, dizziness, constipation, bitter taste, sleeplessness, lack of energy, pain in back, puffiness under the eyes—any or all of these symptoms often indicate that there is something the matter with your liver. You can't be too careful about the medicine you take. Be sure that the name, "Thedford's Black-Draught," is on the package. At all druggists.

BLACK ANALYZES TAXABLE VALUES

POINTS OUT THAT 103 COUNTIES PAID IN \$3,000,000 TOO LITTLE.

Austin, Texas, Aug. 22.—Actual values show that a 30 per cent ad valorem tax levy will be adequate to cover all needs of the state for the coming year, according to a statement today by Representative W. Black of San Antonio. Mr. Black says the real issue to be whether the valorem tax rate shall be fixed at 30 or 30 on the \$100 valuation. He says in this connection that there are counties in which property values are so far below a fair average that State that the taxes charged against them last year were about 100,000 less than their just share. His statement materially differs from many that has yet emanated from House members and is as follows:

Statement of Black.

I believe the people of Texas should have a clear understanding of the situation at Austin, so that public opinion may be formed from pertinent facts. The constitutional limit for ad valorem taxes is 35c, and the legislature is expected to keep within that limit. The actual figures show that a 30c ad valorem levy will cover needs, with a margin of safety. It is well to not keep in mind that more than half of available funds come from sources other than ad valorem taxes. The real issue is whether the state levy is to be 22c or 30c. The estimated financial resources of the state for the coming fiscal year are as follows:

"Cash Sept. 1, 1921, \$3,723,042; ad valorem tax, rate 30, \$8,089,127; receipts other sources \$9,465,585; total, \$21,277,755; total appropriations and expenditures to date, \$15,344,592; conference committee report for educational appropriation, \$4,975,296; margin available for future contingencies, \$957,865.

"It is well to again emphasize the fact that this statement is based on a 30c levy.

Some Counties.

It is also well to note just how the difference between a 22c and a 30c rate will affect the taxes on farm lands in a few counties selected at random. The average assessed value per acre is taken from the last comptroller's report. The increase here given is the total on 1,000 acres of average farm land in the counties named:

	Average Increase on per acre, 1,000 acres.
Cass	\$ 5.78
Cherokee	9.00
Cooke	14.91
Erath	11.03
Falls	20.00
Freestone	9.00
Hill	26.30
Johnson	23.11
Lamar	19.26
Limestone	15.00
McCulloch	6.65
Milam	17.00
Montague	10.05
Hopkins	9.37
Navarro	17.15
Throckmorton	6.27

Some of the Counties.

"It is hardly thinkable that an in-

crease of \$13.70 in taxes on 1,000 acres of average Navarro county land is serious as against a reasonable appropriation for our educational institutions, and with the added fact that Navarro county drew out of state school funds \$23,000 more than it paid in.

"Hopkins paid into the school fund \$42,000 and drew back \$88,000. In the face of this fact a 30c rate would be only \$7.50 on 1,000 acres of Hopkins county land.

"Milam county paid into school fund \$64,000 and drew out \$94,000. Yet a 30c tax rate would add but \$13.60 on 1,000 acres of Milam county land.

"Falls county pulled down in school fund \$25,000 more than she paid in. Yet a 30c tax rate will add but \$16 taxes on 1,000 acres of Falls county land.

"Limestone county pulled out of the school fund \$24,000 more than she paid in. Yet a 30c rate will add but \$12 taxes on 1,000 acres of Limestone county.

"Many other counties can be added to this list. It is well to note in this connection that there are 103 counties in which property valuations are so far below a fair average for the state that the taxes charged against them last year was \$3,000,000 less than their due share. I believe such facts as here given, to which many other can be added, should be given out and studied by the people.

"Our government and institutions must be adequately supported, and if each and every county will do its share this can be easily done."

GOVERNOR FILES ELEVEN NEW LAWS OF STATE

Austin, Texas, Aug. 22.—Governor Neff today filed eleven bills with the Secretary of State. Six of the bills were signed by the governor and the other five were allowed to become laws without his signature.

The bills signed are: Making appropriation of \$165,600 for the first year and \$185,000 for the second year for vocational education, appropriation of \$100,000 to pay contingent expenses of the first called session; authorizing navigation districts con-

taining a city of 100,000 population or over to acquire and develop wharves, docks and other facilities necessary to operate and develop a port; validating certain bond elections and defining how bond issues shall be submitted; appropriating \$7,000 for printing of bulletins, forms and blanks in Department of Education; authorizing commissioners' court of any county having in excess of 200,000 persons and containing a city of 160,000 population to establish a law library in such county.

Bills filed without the governor's signature are: Making the librarian of the University of Texas custodian of printed reports of decisions of the Court of Civil Appeals, Criminal Appeals and Supreme Court; providing for public weighers for counties where there are two or more cities or shipping points receiving commodities in large quantities; authorizing cities to permit obstruction of a street not part of a designated state highway by passenger trains for longer periods of time than specified by law; extending time in which to develop oil and gas under permits heretofore issued under mineral act of 1917 upon islands, salt water lakes, bays and inlets owned by the state within tide water limit; authorizing commissioners of General land office to lease Green Island, three-island group, North Bird Island and South Bird Island and adjacent reefs in Laguna Lake on the Texas coast for a term not exceeding fifty years to the National Association of Audubon Societies, to propagate, protect and conserve birds and bird life.

The Senate concurrent resolution extending the time for payment of promissory notes for the purchase of the State's iron industry at Rusk was filed today without the governor's signature.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILD TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispet the worms, and the child will be in perfect health. Pleasant to take. 10c per bottle.

EYE EXAMINATION

and glasses prescribed by modern methods. Lense grinding, cutting, drilling, etc., on short notice.

Office, Cameron Herald Building, Thursday, Friday and Saturday only of each week.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism.

It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Limber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

THOMAS SAYS RE-DISTRICTING UNSATISFACTORY

Cullen Thomas of Dallas, candidate for the democratic nomination as Senator from Texas, discussed the Senatorial redistricting bill now in the governor's hands, before leaving Fort Worth Friday morning for Granbury, where he speaks today.

"I hope the governor will do one of two things," said Thomas. "I hope he will veto the measure passed and re-submit the question and hold the legislature in session until this is accomplished. Or if he approves the bill I hope he will submit the question of changing the date to make it effective in 1922. This should be done as matter of constitutional duty on the part of the legislature and as matter of tardy justice to our great, prosperous and patriotic state people."

ED CROSS HEALTH INFORMATION.

Whooping Cough.

In the beginning the child shows signs of an ordinary cold, with running of the nose, slight fever and a dry cough. The eyes become somewhat bloodshot. In a week the cough becomes worse and coughing fits begin, ending in the unmistakable "whoop." Sometimes the whoop is not present but even in these cases great care must be taken. In mild cases the child will have four or five coughing fits a day. In severe cases, many more.

Whooping cough is very catching. Mothers should be careful to keep their children away from others who have the disease. And mothers with children who are ill with whooping cough should be equally careful not to allow their children to play with well children, even until sometime after the whoop has disappeared as the disease can still be transmitted.

All matter that comes from the mouth and nose should be received in old linen or rags and burned. Separate cups, glasses, and eating uten-

sils should be kept for use of the sick child.

The child vomits frequently during the disease. As a result many children lose weight and become very weak, a condition receptive for contracting tuberculosis, pneumonia and other serious ailments. Give the child no heavy food, milk and eggs being especially good. An egg well beaten in milk should be given it each time the child loses its meal. See that it gets plenty of fresh air. As it is difficult to do this inside the house, it should be taken out into the back yard or into a near by park. Keep the room well aired night and day.

As soon as your child shows the first signs of this disease go to your doctor for advice.

IF BACKACHY OR KIDNEYS BOTHER

**Eat less meat and take a glass of
Salts to flush out Kidneys—
Drink plenty water.**

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Mr. Robert Smith, Piano.

SALVATION ARMY IN TEXAS

Cameron Herald:

Our field representative has reported the result of his recent visit to your county, and I am very glad indeed to learn that the Advisory board there consider their connection with the Salvation Army, in carrying forward the great work our organization is striving to do, distinctly worth while. It is a source of gratification to know that you have not become "weary in well doing."

While we have not been able to accomplish all of the many objects we set out to do under this advisory board plan, yet its value to the people of the rural communities has been clearly demonstrated. We have successfully handled approximately 234 cases, involving hundreds of unfortunate men, women and children, and have offered relief to communities that were stricken as a whole, working through our advisory boards.

Practically every organized county in Texas has been served in some manner or other by the Salvation Army during the past year. We feel

that this is a record of accomplishment of which we might well be proud, however we are more concerned with the continuation of this splendid program for relief and for still further extension of Salvation Army service into the remote districts of every county than we are of feeling proud of our accomplishments up to this time.

To you, as a member of the board, I hasten to express my appreciation for your active interest and the hope that we may always have your good will and co-operation.

Our annual district convention will be held in Houston early in September, we will be writing you more about this later. In the meantime, we hope that you will be thinking over some of our problems and become prepared to give us the benefit of your council and advice.

Hoping to have the pleasure of

greeting you personally before long, and with best wishes, I am

Sincerely yours,

GEO. WOOD, Lt. Colonel.

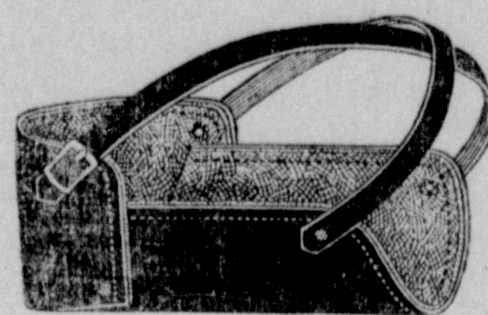

Kingsville, Texas, Aug. 23.—It has been demonstrated that a Ford truck is also well adapted to hatching eggs. Three weeks ago a driver of a truck for an oil concern of this city placed two eggs wrapped in a sack under the hood of his truck, and Friday was rewarded with the "peep," peep" of a newly hatched chick. This explodes all theories that eggs in the process of incubation must not be shaken and that the temperature must be kept even at all times. The owner of this strangely hatched chick will name it either Henry or Lizzie, which will be determined as soon as the sex of the newcomer can be decided.

AN OLD RECIPE TO DARKEN HAIR

**Sage Tea and Sulphur Turns
Gray, Faded Hair Dark
and Glossy.**

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

How The Man in Maine Buys Oregon Apples

Commerce lives through the interchange of products. California fruits are sold in Maine. Shoes made in New England are worn on the Pacific slope. Automobiles from Detroit traverse the Florida sands; the North smokes Southern tobacco. And so it goes.

Advertising has played an all important part in fostering business growth. Without it we would retrograde half a century, or more. Business would stagnate; large institutions which build cheaply by large production would fade into oblivion; we would live in total ignorance of many things which might add to our wealth, health and happiness.

The bread and butter of business depend on advertising, and your interest in it.

Read the advertisements in this paper. They will be as productive of results to you as to the companies that pay for them. In half an hour, or less, you can metaphorically, visit the progressive stores in town—the various places that supply the things that go to make life what it is.

Read the advertising. It enables you to get more for your money by telling you what, where and when to buy. It is your daily guide to what's good to get.

READ IT—REFLECT ON IT—IT PAYS

Ford
THE UNIVERSAL CAR

Every Ford Product a Helper

Now's the time to buy that Ford Car or Ford Truck or Fordson Tractor. Never were higher quality materials woven into these great utilities; never have prices been more reasonable, nor that dependable and excellent "After-Service" so complete.

Machine work is always more precise than hand work. The special tools and machines in our garage are the same as those being used and recommended because of their precision and time-saving qualities, by the Ford Motor Company. Our modern and up-to-the-minute equipment makes it possible for us to do any work on your car, truck or Fordson tractor from a minor adjustment to a complete overhaul. The promptness with which we do the work is a by-product of these specially designed machines; and we charge only the reasonable Ford prices for your work.

If your Ford car isn't running at top-notch efficiency, bring it here to Ford headquarters—that's to us. One of our Ford mechanics will adjust or repair it for you with as little delay as possible. Keep your car in good condition. It's the most economical way.

CHAMBERS-HEFLEY MOTOR CO.

Cameron, Texas

THORNDALE NEWS

BY FRED M. HERNDON

BOY HURT IN AUTO CRASH.

Don Lee Johnson, the three year old son of Mr. and Mrs. J. T. Johnson was painfully bruised about the head and cut about the face by glass from the windshield from his father's car when the light car driven by his father crashed into the larger car driven by his uncle, Mal. Gilchrist near Ellison Ridge on the Gabriel road early last Thursday morning.

The light car was being driven by Mr. Johnson and occupied by him with his three children, Carl, aged 7 years, Don Lee and baby Martha Ruth. Mr. Gilchrist was coming to the city in his big Buick and was alone. The crash occurred at the sharp turn in the road near Ellison Ridge, neither driver seeing the other car until too late to avert the crash. Neither driver nor the other children of Mr. Johnson were injured. Both cars were badly damaged.

The Champion is in receipt of a letter from Fred Ryan, a former Thorndale boy who now lives in Stamford, enclosing the official statistics of the Stamford base ball club, with the query of how Thorndale Champs stack up with his team. The Stamford club and the Champs are just about the same in percentages and a five-game series between the two teams would be a humdinger. Stamford played 46 games, won 35 and lost 9. Two games were tied. The Champion hopes to have the statistics for the Thorndale Champs for next week to show Fred just how we stack up over here, and for comparison with his team.

ROUND BALE BUYER HERE.

R. H. Polzin, the round bale cotton buyer is again in Thorndale and will buy cotton here again this season. He will make headquarters at the round bale gin and at the Thorndale State bank. Mr. Polzin is representing Anderson, Clayton & Co., of Houston.

FIRE OUT BEFORE FOUND.

Mrs. Matt Grey entered a spare bed room at her home last Wednesday and found that the mattress upon the bed had been burned to a crisp. A charred match was found near by indicating the work of rats. No other damage to the room was found, and she is no doubt wondering just how the house was saved.

dicating the work of rats. No other damage to the room was found, and she is no doubt wondering just how the house was saved.

FIRE PREVENTION COMMITTEE OF THE COMMERCIAL CLUB TELLS HOW TO PREVENT FIRES.

The fire prevention committee of the Commercial club has issued the following rules and helps on preventing fires. W. B. Elliott, chairman of this committee is now at work on securing data concerning some means of fire fighting for the city, some apparatus that can be purchased by Commercial club that will give adequate assistance at a low cost. Several methods are under consideration.

Adequate fire-fighting equipment could be installed here that would save its cost in three years time, and the saving to policy holders could be paid on this cost in such a way that it would not be a burden to the community.

How to Prevent Fires.

Nearly all fires are the result of carelessness.

If the following precautions are followed, fires from accident and spontaneous combustion will seldom occur:

Keep your house, or store clean.

Never allow rubbish, such as paper, rags, old clothes, boxes, etc., to accumulate in closets and unused rooms.

Never fill the oil lamp or stove after dark or near an open fire.

Never run the stove pipe through a wooden partition or roof.

Never put ashes in wooden boxes on or about the premises.

Never keep matches except in metal or glass containers.

Stoves, pipes, flues and chimneys should be thoroughly examined each fall before using, and frequently during the winter, in order that defects may be repaired before serious results follow.

Never fail to clean flues twice each year. This can easily be done by attaching a bundle of scrap iron to the end of a rope and drawing it up and down against the side of chimney, beginning at the top.

Place metal under all stoves and furnaces to prevent coals of fire dropping from stove and burning floor.

Never build brick flues with brick on edge.

Never use ordinary rain proof for flue when room is ceiled overhead.

Have your electric wiring system inspected, and see that they are properly installed, and do not touch any wood work or metal.

Never close up your place of business or leave your home without first going over it carefully to see that all fires are out or safe.

BARN BLAZE CAUSES EXCITEMENT LATE THURSDAY CAUSE UNKNOWN

Fire of undetermined origin late Thursday afternoon destroyed a barn, wagon shed and water tower belonging to J. J. Elliott in the southwestern part of the city with a loss of practically \$1000.

Besides the barn, wagon shed and water tower, two wagons, a set of harness and about \$50 worth of feed was destroyed according to Mr. Elliott who estimated his loss at \$1000 with only \$200 insurance.

REVS. HELD AND BURK CLOSE GREAT MEETING FOR SAN GABRIEL BAPTIST

The Baptist revival meeting at the Penn camp ground on the San Gabriel river which closed last week was perhaps the greatest meeting held in this section in many years, according to Rev. J. J. Burk who was assisted in the meeting by Rev. John A. Held of Bryan.

Unusual interest was manifested throughout the meeting and under the great sermons of Dr. Held a real spiritual awakening was undergone in this community. There were 18 additions to the church during the meeting besides 8 converts who have not yet united with any church.

Rev. Burk and family made their camp near the tabernacle, as did many others who spent the entire time during the meeting along the beautiful San Gabriel river.

Mrs. B. F. McIntosh returned Monday from a visit to her mother at Lexington, Texas.

Mrs. M. L. Carroll, son and daughter, Mrs. Grinstead of San Antonio have been visiting in the home of her son, Jim Thompson and family.

Ervin Thompson returned home Sunday after a six weeks stay with his grandmother in San Antonio.

Jim Thompson left Thursday for San Antonio with his grandmother, Mrs. M. L. Carroll who returned home in her car.

Mrs. Lena Grinstead and little daughter Vera have returned to their home in San Antonio after a pleasant visit to her brother, Jim Thompson and family.

Mr. and Mrs. Clyde Barnhart and baby of Palestine returned home Sunday after a pleasant visit here to Mrs. Barnhart's uncle, Fritz Lange and family.

A LETTER FROM P. C. CASEY WHO IS VISITING IN PLAINVIEW.

The Champion is in receipt of a letter from P. C. Casey who is on a visit to his brother near Plainview. He states the plains country is the most beautiful he has ever seen, peopled with most generous citizenship. The farming there is done with tractors that turn the dirt at a rate of 21 feet to a strip and harrow as they go, making his old mule back home look sick.

Mr. Casey says it is necessary for him to use an overcoat and sleep under two heavy quilts at night. (Poor consolation for us poor fellows back home here.—Ed). He states that he has met many former friends of 50 years ago and has met one of his former school teachers. He is enjoying his visit very much and writes that his brother, although a practical invalid, is somewhat improved.

Give Rockdale credit for recognizing a good thing when they see it. Goat roping will be one of the features of Rockdale's next trades day. If Rockdale will only send their trades day committee over to Thorndale's trades day they can get some other valuable ideas on these monthly occasions. And we'll let you have our 24 piece band too, if you'll be real nice to them.

* Possibly the reason we never hear the state of Nebraska mentioned now is that William J. Bryan has moved to Florida.

MOVED

NEW TRUCK BILL AS PASSED LIMITS THE LOAD AND SPEED

Austin, Aug. 19.—The amended truck bill by Johnson of Wichita is now on the desk of the governor. It repeals the act of the regular session, which was held unduly burdensome.

As the measure finally passed both branches, it increases the annual license fee on commercial motor vehicles according to net carrying capacity and tire equipment, but the mileage tax imposed by the regular session of this legislature is eliminated. Trucks and tractors used exclusively for agricultural purposes are exempted from special license fees stipulated in the bill, but it is provided that license fees shall be paid on agricultural trucks according to horsepower, just as now paid by automobiles. Fees for tractors not used for agricultural purposes are based on weight.

Four Tons the Limit.

Under an amendment adopted by the conference committee, a license shall not be issued to any truck of more than four tons carrying capacity, except on written application to the Highway commission showing that roads would not be injured by such trucks. The bill provides, however, that no license shall be issued to trucks of more than five-ton carrying capacity.

Another section of the bill provides that county road superintendents or supervisors may during wet weather prohibit the use of any highway to loads of such weight as would damage the roads.

Speed limits are fixed according to gross weight of vehicle and load, and according to tire equipment. Pneumatic tire equipment is favored in this as well as in the case of license fees, higher speed limits being allowed vehicles equipped with pneumatic tires as lower license fees have been provided for such vehicles.

View Mirrors.

All trucks must be equipped with rear-view mirrors, and no truck shall operate with solid tires less than one inch in thickness at any point, or with pneumatic tires where one of such tires is missing. Drivers operating cars in this condition are subject to a penalty of not more than \$200, as are also those drivers who operate vehicles of more than four-ton carrying capacity without special permit.

Fees to Be Charged.

Following is the scale of license fees provided for commercial motor vehicles, which are defined as any motor vehicle designed for the transportation of property:

Carrying Capacity (pounds).	Pneumatic Tires.	Solid Tubes.
1 to 2,000	\$ 15	\$ 18
2,001 to 3,000	30	36
3,000 to 4,000	40	48
4,001 to 5,000	50	60
5,001 to 6,000	65	78
6,001 to 7,000	80	96
7,001 to 8,000	100	120
8,001 to 9,000	120	144
9,001 to 10,000	150	180

For each trailer or semi-trailer drawn by a commercial motor vehicle or tractor, per 100 pounds gross weights of vehicle and capacity load equipped with pneumatic tires, 15c; solid rubber tires, 25c; iron, steel or other hard tires, 35c.

Provided that semi-trailers equipped with iron, steel or other hard tires shall pay at the rate of \$1 per 100 pounds of gross weight as specified under this section.

For tractors, the annual license fee shall be based upon the weight of the tractors as follows: 1 to 2,000 pounds, \$5; 2,000 to 4,000, \$10; 4,000 to 6,000, \$15; 6,000 to 8,000, \$20; 8,000 to 10,000, \$25.

Following is the speed limit scale. Commercial motor vehicles equipped with pneumatic tires: Maximum weight in pounds, including gross weight of vehicle and load.

Weights (pounds)	Miles Per Hour.
2,001 to 4,000	22
4,001 to 6,000	18
6,001 to 8,000	15
8,001 to 10,000	12
10,000 to 12,000	10

Commercial motor vehicles equipped with solid rubber tires. Maximum weights in pounds including gross weight of vehicle and load:

Weights (pounds)	Miles Per Hour.

Young Brothers Battery Station

Cameron, Texas

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

AUSTIN, TEXAS

SEPTEMBER 15-16 BIG CONFEDERATE DAYS FOR TEXAS

"Let us keep our camp fires burning" is the appeal made by E. W. Kirkpatrick, major general commanding the Texas division of United Confederate Veterans, in a letter sent to all Texas posts. State headquarters are in McKinney. General Kirkpatrick strongly urges all Texas Confederates to make the most of their state and local reunions and in particular to attend the state reunion at Temple September 15 and 16.

McKinney, Tex., Aug. 15, 1921.
"To Comrades of Texas Division, U. C. V.:

"Our annual reunion occurs on September 15 to 17, 1921. The good people of Temple have favored us with a most cordial invitation to come and accept their hospitalities and hold our reunion in their city.

"Our dear comrades are rapidly passing to the other side where we must follow. While their mortal part is absent, may we not hope their spiritual part is with us to minister and console.

"Evidently we remain on time side of life for a service of beneficence. Our sons and daughters will continue the work of verifying truth.

"The Daughters of the Confederacy are the ministering angels who comfort the living and who perpetuate the memory of the dead.

"In recounting the history of defeated armies, no parallel is found where a defeated people kept intact fraternal and memorial organizations such as those which have followed the armies of the south.

"The storm centers of anarchy in this country have never lodged in the south. Our government finds no cause for deporting southern people.

"Southern armies were not drawn from the ruffraff of Europe nor from the spawn of Africa. Our standards were of civilization; our ideals of enlightenment. We made a record for honorable and valorous defense of conviction and that record stands unchallenged.

"Our contention was for self determination in choice of form or government. That contention is receiving rapid fulfillment.

"We also contended for the binding obligation and sacredness of a written constitution. The world's war verified that contention.

"Another contention was for the integrity of the white race, which is reviewing constant acceleration everywhere.

"On account of transportation irregularities and of deflation inconveniences, our national reunion may be postponed. For this reason we should make the most of our state and local

reunions.

"Let us merge our weaker camps and keep our fires burning."

"E. W. KIRKPATRICK,"
Judge Ed F. English, commander of Ben Ben McCullough Camp in Cameron will represent this camp at the reunion to be held in Temple.

SULLY'S BIT O'VERSE.

Childhood Cheer.

Little kiddies playing through the happy summer days! Never have a worry 'bout the world and its ways, don't care what is doing in the kingdoms of the earth, romping through the meadow lands of happiness and mirth. Seems an awful while ago since I was romping there, thoughtless as the warbling birds, having not a care, seems about a million miles back to sunny hours when all the time was blossom time and full of sun and flowers. Little children playing in the old home lane, piling up the sunshine and laughing at the rain, smiling at the troubles and cavorting full of glee, taking trips to dream-land 'neath the old home tree. Grown folks worry and they look away ahead for a chance to borrow trouble and to find things to dread. Ought to learn a lesson from the little ones at play and keep a sunbeam handy to drive the cares away. Little happy dreamers of the golden summer days, soon to feel the weariness of long and toilsome ways, store away a little bit of childhoods happy cheer, keep your faith and courage when the skies grow drear.

(Copyright 1921 by E. E. Sullivan)

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It
Darkens so Naturally
Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

FUNDS TO ASSIST IN MARKETING PROVIDED

Washington, Aug. 22.—The tax revision bill passed by the House was formally received by the Senate today and sent to the Senate Finance committee without debate. It is the intention of the committee to begin consideration of the tax measure in a few days and to sidetrack the tariff for it.

Farm Bill Passed.

Washington, Aug. 22.—The Administration bill giving the War Finance Corporation authority to create a fund of \$1,000,000,000 to aid farmers in financing the exportation of their products, passed the House this afternoon by a vote of 314 to 21.

The bill has passed the Senate, but having been changed in the House, it will have to go back to the Senate for reconsideration by that body. It is the plan of both House and Senate leaders to pass finally this bill before the recess is taken during the coming week. The strong pressure for its enactment has come from farmer organizations which are demanding financial assistance in the markets in foreign countries of their surplus crops of last year and the surplus production of the more recent harvests.

Under the provisions of the bill the War Finance Corporation is to sell its

bonds to raise the money necessary to help finance the market operation in the interest of agriculturists. It may loan to foreign individuals or firms engaged in the purchase of American farm products and assist the farmer in other ways to dispose of his surplus.

NOTICE.

Notice is hereby given that bids will be received at two o'clock p. m., August 27, 1921, at the office of the county superintendent for the erection of a three room frame school building for the Yarrington school district.

Plans and specifications for the same may be seen at the office of the county superintendent. The trustees reserve the usual right to accept any or reject all bids. A certified check for five per cent of the amount of bid must accompany all bids.

A COMPLETE LINE OF GENT'S FURNISHINGS

Jno. W. Schigut

Cameron, Texas

By Mrs. W. A. GILLON

SHOWER.

Last Friday afternoon at 4:30 o'clock Mrs. C. D. Lay complimented Miss Wallace Plaster with a miscellaneous shower. The guests were met at the door by Mrs. C. E. Gaston. Little Misses Abbie Reece Harvey and Lelia Batte received the mysterious packages at the door.

The home was beautifully decorated in pink and white roses and ferns.

In the receiving line stood Mesdames Clower, of Houston, C. D. Lay, Miss Wallace Plaster, Mesdames J. F. Plaster, Page of Waco, Wisecup of Rockdale, Roy Epperson of Temple, Misses Gathleen Spring, of Childress and Marguerette Meek of Elgin. In the dining room the guests were served pink and white brick cream and white cake by Misses Irene Wisecup of Rockdale, Jesse Bell Spring of San Antonio, Ruth Harther of San Antonio and Myra Lankford.

Plate favors were white wedding bells tied with pink ribbon.

Piano solos were played by Mrs. Ira F. Key, Misses Ruth Sprinkle, Ruth Coleman and Jewel Joslin. Vocal solos by Misses Glayne Robinson and Myra Lankford.

An additional pleasure was several numbers by little Miss Irene Wisecup of San Antonio who had gone to school to Miss Wallace Plaster in San Antonio.

As the wedding march peeled forth under the skilled touch of Miss Ruth Sprinkle, Mrs. Lay led her honor guests out on the back porch and seated her in a large chair, decorated in pink and white. Mrs. K. K. Robbins acted as toastmistress and in a very clever way introduced the following:

Cupid Miss Ruth Coleman
The Bride Miss Jewel Joslin
The Groom Miss Motie Cass
Single Blessedness Miss Ruth Wylie
House in Happiness Square.....

Mrs. W. O. Triggs
After the laughs were over the witty and smart toasts, little Misses Abbie Reece Harvey and Lelia Batte marched in carrying a large pink and white basket just filled to overflowing with gifts of all kinds attesting to the love and high esteem of the bride, Miss Wallace Plaster.

HOOVER-PLASTER.

Last Sunday night at 9:45 o'clock on the lawn at the home of Mr. and Mrs. I. H. Plaster, Mr. W. R. Hoover of Eastview, Kentucky and Miss Wallace Plaster were happily married.

A bank of ferns was arranged and an altar improvised. Wires had been stretched and covered with pink and green, from which Japanese lanterns hung, making aisles through which the bridal party came. Just before the ceremony Miss Gladys Robinson of Georgetown sang: "Sweetest Story Ever Told," and Mrs. C. D. Lay sang "I Love You Truly." Miss Ruth Sprinkle played the wedding march, very softly during the ceremony, "O Promise Me."

First came down opposite aisle Miss Kathleen Spring, of Childress, dressed in rose organdy and carrying pink flowers. Miss Marjorie Meek of Elgin, dressed in lavender organdy and carrying lavender flowers.

Dr. Wisecup of Rockdale, acting as best man, and Miss Jewel Joslin, maid of honor, dressed in turquoise blue satin, silver lace and carrying white clematis and yellow marigold, came next. Little Miss Wisecup followed, looking like a fairy, dressed in white tulle over satin, wearing silver slippers and carrying the ring in a white satin pillow.

The groom in conventional black, the bride dressed in pink taffeta with touches of gold approached the officiating minister, Rev. Ira F. Key, who read the impressive words which made them one. The bride threw her bouquet of Killarney roses and valley lilies and Miss Jewel Joslin caught it.

The bride changed to a beautiful navy serge dress and duvetyne hat and the happy couple took the midnight train for Houston.

Mr. Hoover is a fine young man, now a chemist at Hull, Texas.

Miss Plaster is the daughter of our well known and highly respected townsman, Mr. and Mrs. J. F. Plaster. Miss Wallace was a high school graduate of 1914, attended C. I. A. and Baylor university, and afterwards taught in San Antonio.

The Cameron Herald and hosts of other friends follow them with best wishes all through life's journey.

LUNCHEON.

Last Friday at one o'clock Mrs. Mac Harvey was hostess to the Hoover-Plaster wedding party and a few others. There were twenty present. Four small tables had been arranged

at the First Christian church at Houston. His other daughter, M. Roxy Elwood of Houston, led in the singing. There were fifteen additions to the church. Rev. Weaver went from here to hold a meeting at Rockdale.

S. S. PARTY.

Last Monday afternoon Mrs. Jim Watson was the charming hostess to her Sunday school class of little girls. The party was on the lovely lawn where the blooming plants and flowers made a lovely setting. There were ten happy children present and under the leadership of their teacher played all sorts of out door games, while they enjoyed ice cream cones every time they wanted one.

BRIDGE PARTY.

Last Wednesday morning at nine o'clock, Miss Gladys Watson was hostess at a bridge party on the porch of her lovely home. Ferns, trumpet flowers and salvage were the chosen flowers used. The color scheme was green and red and was most artistically carried out. Tally pads were red tied with green ribbon, score cards were red hearts, diamonds and black spades and clubs on which perched cupids. Three delightful games were played on the cool porch and at reckoning time Miss Gladys found that she had won her own prize but in a charming, graceful way presented it to Miss Beth Jeter who won next to high. The prize was a beautiful wooden bud vase with handles of woodpeckers pecking the wood. The guests were invited to the dining room and were seated around a beautifully decorated and highly polished board. A green luncheon set was used. The centerpiece was a reflector on which rested a large bowl of red salvage and fern. Trumpet flowers were draped gracefully around the room. A delicious luncheon, consisting of chicken, pimento salad in molds, frozen pear salad, butter sandwiches, plumb jelly, sliced tomatoes, olives, ice tea and salted nuts, in little red basket nest holders, was served to the players and those assisting Miss Watson in her early morning hospitality were: Misses Gladys Watson, Beth Jeter, Sallie Kate McLane, Minnie Wolf, Louise Green, Grace Gillon, Reba Cheeves, Cornelia Wallace, Mildred Chambers, Harriette Henderson, Mesdames John Watson, J. L. Clinton, W. A. Gillon and J. C. Tucker. The guests lingered quite a while thanking Mrs. Watson and Miss Watson for the pleasure of the lovely party.

D. A. R.

The Sarah McCalla Chapter of the Daughters of the American Revolution met at the home of the Regent, Mrs. B. J. Baskin last Tuesday afternoon with eight or ten members present.

Business of the afternoon was ways and means of raising money to purchase a marker to be erected at old

Fort Nashville, historic place of the first county seat.

A rumage sale was decided upon. The place and hour to be found elsewhere in the paper.

BIRTHDAY PARTY.

Last Monday afternoon little Miss Cornelia Gunn celebrated her eleventh birthday. About thirty little boys and girls participated. Games of all kinds were played after which the big cake, with all colors of candles on it, was cut and served with pink lemonades. Miss Cornelia was the recipient of a number of presents, some of which were fans, perfume, handkerchiefs, stationary and many other things that delight little girls.

P. T. Driscoll of Burlington was in Cameron Tuesday and while here called at The Herald office. He has been a reader of The Cameron Herald for a number of years. Mr. Driscoll owns farm interests near Burlington. He says the cotton crop is short this year but hopes for an increase in prices.

Everything Ready For the Occasion

Someone once said that when a man starts going down hill he finds everything greased for the occasion. This is especially true of the man who starts to deteriorate physically.

The human body is such a wonderfully co-related machine, every part being in such close working relation to every other that when one part begins to function abnormally all the others are more or less affected.

All the body parts are kept in close working relation with each other through the ever-ramifying nerve system.

Since the nerve system carries "disease messages"—messages to the whole body that one particular part is affected—it would seem reasonable to suppose that this same nerve system also carries "health messages"—messages to the whole body that everything is going smoothly.

The health science of Chiropractic holds that nerve force is the motive power of the body and that free and uninterrupted passage of nerve force, or "health messages," along the nerves is necessary to health. When the "health messages" to any particular body part are halted, that part will not function normally.

Then, through reaction, the nerve system begins to send "disease messages" to every other body part.

Nerve force—"health messages"—must not be interrupted. They must have free right of way.

"Health messages" are most frequently interrupted at the spine. Here the main trunk lines of the nerve system branch away from the spinal cord. In doing so, they pass through and between the movable little bones comprising the spinal column. It is easy for one or more of these little spinal bones to get slightly out of place, out of line, thus pressing against, pinching or tensing some of the nerve trunks. This interrupts the nerve's "health messages."

A. B. GUINN, Chiropractor

LOCAL AND PERSONAL

C. B. Wade and daughter, Miss nie Wade of Belton, spent Monday Cameron with Mr. and Mrs. J. C. Tucker.

Mrs. Esther Sonntag, of Temple, ent Sunday in Cameron to attend e Hoover-Plaster wedding.

J. C. Martin with the R. L. Batte interests, has returned from a two weeks stay in western Texas with a party of friends on a vacation trip.

Hints From The Bischof Style Show

A Preliminary Display of New Suits and Coats Which Anticipate any Plan of Expenditure

The success of Bischof models, season after season, is not so much the in-advance styles, as it is the superlative quality of fabric, and the exactness of detail which every discriminating woman insists upon.

We know of no prettier, finer or more carefully designed Suits and Coats for fall than the new Bischof models, which we invite you to see. Enjoy the satisfaction which comes from making and early choice of BISCHOF SUITS AND COATS.

Fall Hats

If perchance you imagine that early Fall Hats are freakish, just visit our autumn Millinery Display. Never have Hats been more becomingly or attractively fashioned than this season modes. They show very delightfully that the artistic designers may introduce the most startling innovations without anything bizarre or extreme even creeping in. Novelty of contour produces interestingly irregular shapes and new trimming effects are no less unexpected. Bristling quills, swooping feathers and jaunty ribbons are favorite garnitures.
